PARENTS / GUARDIAN, OPEN HEART TALK ABOUT YOUR CHILDREN

- If your children fail you fail too...
- If your children fail it's your fault...
- If it's your fault then it will become children's problem
- If children's problem it will turn to be your problem too
- It then becomes a family problem
- It then becomes the community problem
- It then becomes a national problem
- It then becomes the world problem

HOW TO SOLVE IT?

- ⇒ Do you really know the ART of PARENTING? If YES then prove it!
- ⇒ Do you really know specific scientific facts how CHILD grow and adopt greater performance?
- ⇒ Realize facts of human always have the option to learn new and finest practice, no matter how great your caring on child non-tally solution can be an approach to fail your original objective to nurturing child.
- ⇒ Your knowledge and understanding can expire too.
- ⇒ Avoid assumption of new information using your old existing knowledge because it determines decision-making option.
- ⇒ Ready to learn and accept the latest facts about your children!
- ⇒ Refill new essence about BRAIN, THINKING, EMOTION and student performance.
- ⇒ Renew your perception of brain functions such as your own thought (whether you do it for good purpose or not) can be a toxin for child's memory.
- ⇒ Just POSITIVE thinking and words do not guarantee your nurturing should produce desire good impacts. If yes show the RESULTS!
- ⇒ Don't be so satisfied with your discipline of providing modern science base food, drinks and meals are sufficient as it is always research, wrote, expose, teach and thought by world renown industry leaders.
- ⇒ Whether the modern scientific individual, best brain research or well-known university publication it can have the error too. Especially if it's about manufacture food.

Testimony from world leaders & experts Who are also our VGENIUST Co-Speaker(s)

MR. SK (SUKA KAWAN) TAN, MALAYSIA

VGENIUST Co-Speaker

Elan's thought and vision is very much aligned to what I am doing to my daughter QQ. However, I have developed a personal KPI method namely "A P.E.R.F.E.C.T" and this is how I would evaluate him: Attitude: he is joyous, approachable and utmost he is humble to everyone he mingled with. Proactive: he always take the 1st step to greet people with positive greetings and share his vast knowledge without being asked at all. I like proactiveness to offer his 1st hand information to people that he met. Effective & Efficient: No doubt he is an expert to help people to achieve more with less. Results: To me he is a high achiever with high value and ultimately he delivers.

Focus: I know he always focus to draw people attention all the time to understand his messages. Enthusiasm: Obviously without much saying he loves what he does to achieve his deliverables at his optimal anytime. Communicator: The most challenging part of the human development and yet I have seen he is great at communicating with good listening too. Take Charge: This is what I love about him with good intention to help people to achieve what they desire. Always taking charge to go beyond what clients wanted.

SK Tan is the Asia's Leading Brain-based Learning Expert and he operates Wonder Tree with extensive research and development of brain-based learning methods. His 1st Brain-based typing system "EasyType" won him an award at the ITEX 2005. He further developed "QBrain Method" - a whole-brain learning method of genius development designed to explore brain potential integrated with "Learning-to-Learn" and Learning-to-Think" at the fullest capacities. Subsequently, he integrated the Brain Enhancement & Synchronization Technology (BEST) that covers Fun Brain-compatible learning with E.A.S.Y series, health products, Super Brain Activator (ESP skill), QBrain+ game card and LazyMath which has been endorsed by Universiti Sains Malaysia, Penang together with EasyArt, too.
