VGENIUST Singapore Dr Saravanan children testimony 2018

We, Dr Saravanan and Mrs Vadivoo would like to record our sincere gratitude to Mr. Elan for coaching our children Pinngalan and d Tevaneyaal who participated in a 2 Days VGENIUST workshop in 2016, in Malaysia. Both my children diligently practised some of the techniques taught at the workshop and managed to pass that year. However the first quarter CA results were appalling. My son had only scored 20% in his mathematics and nearly failed his science. He needed some serious help. We enrolled him for tuition classes and my wife and I started to assist on his revisions and encouraged him to apply the skills and techniques taught by Conscious Expert Elan in The VGENIUST workshop. Changes started to happen. By mid term he started to progress and he did well in his mid term exams. He got the most progressive student award as he scored 70%. **By the end of the year 2017 he scored 86% and above in all his subjects.** There was also a remarkable attitudinal change in him. He had a keen interest to learn and do well. He was short of 2% to be in the top 5. He was awarded the most progressive student award for his determination. **He also received the achievement award from Minister Vivian Balakrishnan the local MP for our constituency.**

The workshop by VGENIUST, tuition and we as parents have contributed to my son's progress. Thank you Mr. Elanggovan Thanggavilo. I wish all the best for the students who have done this course and I encourage every child to do this course.

God bless
 Dr. Saravanan, Singapore.

The largest animal rights organisation in the world other than the People for the Ethical Treatment of Animals (PETA). To date, it has 6.5 million members and supporters. The founders of this organisation are Ingrid Newkirk and Ales Pacheco. It is based in Norfolk, Virginia.

PETA has been successful in taking into consideration the large numbers of animals that suffer most acutely for the purposes of food. These are the food industry, clothing and textile trade, in laboratories and the entertainment sector. The organisation has made its impact through aggressive media advertising using celebrity support like Anna Sui, Steve, Ellen DeGeneres and Paul McCartney. PETA also works through public education, animal rescue, cruelty investigation, legislation and protest campaigns.

PETA members have organised fashion shows in the US and Europe to highlight its anti-fur campaign. Acts included throwing red paint on catwalks and releasing animals. PETA Asia Pacific in Hong Kong promotes vegetarian and vegan diets through its campaign focusing on the ethical and health benefits of vegetarian diet as well as demonstrating celebrity involvement against fast food outlets.

Each year, PETA bestows a 'Person of the Year' award to recognise individuals who have helped advance the cause of animal rights. The 'Person of the Year' for 2015 was Pope Francis, whose name is taken after the patron saints of animals, St. Francis of Assisi.

If you are against cruel treatment of animals, you may help by adopting homeless animals. Aside from that, speak up if you witness animal cruelty and support PETA so that they may continue fighting for the animals.

Dear Mr ELAN, Founder & Master Trainer of VGENIUST.
First I surprise the VGENIUST workshop conducted by you your self was extraordinary. The magic happens instantly from day 1 of the workshop to Prasanna. A list of changes, improvement. To list few she reduces device usage, sleeps right time early, wakes early automatically about 430am. Nowadays I can see her long hours focus increased very high. Her determination to succeed and obtaining straight A's very firm. She writes her Objective & Goals. *Most important excited impacts, usually she gets marks around 40%+ current exam Form 5 English marks 88%
